Jennifer,

I understand that the numbers are off a few over the past few years. Chuck is most likely right by pointing out that this is explained by intersection accidents that were contributed to the other cross street.

Our numbers show the increase in Glade Road accidents was from 34 in 2013 to 39 in 2014 a 13% increase. It should also be noted that we also had 39 in 2011.

I will work on getting the 2009 report.

Mike

Mike:

This is from Chuck; please give me your thoughts in the way of a response to his comments/questions. I have a 3:30pm phone call with him and I assume he will be asking me about this...

Thanks.

Jennifer
