23															
24															
25	Service calls include responses such as lockouts, citizen assists, mutual aid calls, unauthorized burns, police assists, and animal														
26	rescues.														
27	Total apparatus responses is the total number of Colleyville units that responded through the month or year to mitigate all incidents.														
28	For example, an EMS call where a fire apparatus and ambulance respond is two apparatus responses for one incident.														
29	Simultaneous calls for service involve additional incidents while crews are busy on an incident. Mutual aid is called from other														
30	cities to handle these emergencies.
